

Benefits Navigators Bring Awareness of Banner Benefits

Our Benefits Navigators will support all new and existing benefits-eligible team members, providing thorough benefits education sessions throughout the year. Benefits Navigators will also provide key support during Open Enrollment or other important benefit events.

- Newly benefits-eligible team members will be contacted by the Benefits Navigator within their benefit eligibility period to coordinate times for one-on-one benefits education sessions to explain benefit options and assist with enrollment.
- Our Benefits Navigator will also contact all existing benefit team members every 18 to 24 months to help them gain a better understanding of how to best utilize their existing benefits, as well as understand additional benefit offerings as their individual needs change.
- Benefits education sessions will provide an opportunity for employees to better understand benefit offerings and become more empowered to make educated and cost-effective health care decisions.
- The duration of each benefits education session will vary but can be expected to be approximately 30 minutes, conducted during company time.
